I have tried to make a submission for the above. Initially it did not recognise by email address as a user name. So I submitted my details, mostly as below. Then it was suggested:

- Please enter a valid username
- Please enter a valid password

I do not have either of those for the Commission. So what do I do now? In any case why do you need them when you have my details?

I am not sure why a submission is being made so difficult when you have all my details and my comment. If you do not get many replies then I would not be surprised.

My submission was: "I live in Mapperley Ward and am happy with its composition, so I see no reason for changing the boundaries. Prior to a previous boundary change, I lived in St Ann's Ward and was also very happy there and did not see the need for that change either".
