Walsoken and area to Northwest of A47 should be in Walton Ward along with some areas to Southeast of A47 which are currently in Mershe Lande. If this reduces the population of voters in Mershe Lande too much to remain viable, then Mershe Lande could be a suitable candidate to be broken up and distributed among its neighbours. The current situation with the "pan handle" apparently affects catchment areas for primary schools leading to some children having to pass West Walton school to travel more than miles further to their catchment school - which is ridiculous.
