Midsomer Norton Town Council met on Monday 4th September and considered the proposals for the town. The Town Council has directed me to respond on its behalf and request that the Town Council (Parish) boundary remains the same and that B&NES Council Ward arrangements comply with the boundary. The Town Council feels very strongly, and unanimously, that local democracy is best served by having B&NES Council Wards in Midsomer Norton that serve the town alone and do not include electors from outside the town boundary. Equally, including all of the Midsomer Norton electors in wards within the town boundary should be a key requirement. By meeting both conditions above the electorate will have a clear and logical connection between Local Town Councilors and the four Ward Councilors for B&NES Council.
