Map Features:

Annotation 1: Area part of Cheswick Village, but outside of South Glos

Comment text:

I live in [redacted] Cheswick Village, part of the Frenchay and Stoke Park ward. The village it sandwiched between the MOD at one end and UWE at the other. The village has just one main road through it with an entrance / exit at each end. Area 1 is part of the village, and uses the sames entrance and exit points, facilities and local school as the rest of the village. However area 1 is part of Bristol Council area, this means that for any issues affecting the whole village, Anti-Social Behaviour, parking etc residents have to approach two different councils. This is extremely in-efficient and time consuming. I would suggest that as part of this consultation the whole village either becomes part of Bristol, or South Glos, not spread across the two.
