Good morning

Herewith our response.

Egerton Parish Council considered this at its last meeting and agreed that we wish to continue with the successful and very long standing grouping of Egerton and Smarden Parishes as the single member ward of 'Weald North'. The interests and identities of our two Parishes are very similar and the present arrangement, which we wish to continue, has worked well for us both, and as the population numbers will be broadly the same as they are now, we can see no reason to change.

Heather
