Dear Sir/Madam,

Please find attached a submission for a pattern of wards for South Gloucestershire based on 61 councillors. I grew up in the area and so know it quite well (particularly the north of the district)

I have used existing polling districts, although in 2 cases polling district boundaries would need to be altered to make the numbers work. I have added a "comments" tab where I explain the rationale behind my scheme.

As I have not made a submission before, please let me know if I have done something wrong and I will correct it.

Yours Faithfully

G Nelson

Electoral data

Using this sheet:

Fill in the cells for each polling district. Please make sure that the names of each parish, parish ward and district ward are correct and consistent. Check your data in the cells to the right.

Scroll right to see the second table

What is the polling district code?	Is there any other description you use for this area?	Is this polling district contained in a parish? If not, leave this cell blank.	Is this polling district contained in a parish ward? If not, leave this cell blank.	Is this polling district contained in a group of parishes with a joint parish council? If not, leave this cell blank.	What ward is this polling district in?	What is the current electorate?	What is the predicted electorate?
