Organisation Name: Great Chart with Singleton Parish Council

Comment text:

Great Chart with Singleton Parish Council is concerned that the revised boundaries, will leave key landmarks like, Singleton Environment Centre, Cuckoo Park and the John Wesley School outside the Singleton area. These community buildings and areas have very strong connections to Singleton, moving them to Washford would lose their identity and strong ties to the local area. The parish council, therefore, would like to see them retained with Singleton East. The Parish Council understands that this exercise is to ensure that all wards have even electoral numbers. However, the Parish Council feels the Brisley Fringe extension would provide the required number for Washford Farm ward, the number of voters would reach the required number over time.
