Comment text:

I am not happy about the proposed changes to the Ward which includes Brancaster. As a Parish Councillor I and my colleagues are unanimously against amalgamation with the the Ward which includes the Burnhams. The issues and challenges of Brancaster are completely different to those of the inland villages. Although we have a small resident population, with a small register of electors we have to deal with a huge influx of visitors and second home owners during the summer. The problems we experience are totally disproportionate to the number of electors. We need a Borough Councillor to represent us who will not be too thinly spread between too many villages and Parishes. At the moment it works well. Please would you bear this in mind when making the changes to the boundaries.
