Dear Sir,

Proposed Boundary Changes - North Hertfordshire

The Boundary Commission's proposals would seem to be unnecessary and ill thought out. The District Council's recommendations observe the natural boundaries and take note of the latest plans for property development. I cannot understand why the Council's recommendations are being ignored, especially, as there has been cross-party agreement by our elected representatives.

Another boundary change now would confuse the electorate. There is already a very low turn-out for local elections and more changes would discourage and confuse people further.

Any changes would be costly and, in my opinion, premature.

Yours faithfully,

(Mrs) Betty Goble
