Subject: Electoral review of Buckinghamshire- Penn Parish Council

Dear Commission,

Penn Parish Council's views on the proposed increase in the size of County Council wards is that the present arrangements work very well for us and we do not support a still further increase in numbers in each ward.

Long-established parish and community boundaries are far more significant to local people than an artificial area manufactured with the sole aim of achieving equal numbers across very different communities which inevitably means taking bites out of other neighbouring parishes. Leave well alone.

Your sincerely

Miles Green

Clerk to the Council
