Subject: Buckinghamshire boundary changes

Categories: Submissions, Simon

Hello.

I am resident in Marlow Bottom, and I have looked at the potential ward map for Buckinghamshire, at <https://consultation.lgbce.org.uk/have-your-say/29857>.

I would like to comment on the proposed Marlow/Marlow Bottom split. To me this split has never made any sense - Marlow Bottom is completely dependent on Marlow, and is essentially an integrated part of it. Decisions made for Marlow will always affect Marlow Bottom far more than, say, decisions made for Skirmett or Little Frieth. Marlow Bottom is literally adjoining, there is no form of gap between them.

I would be in favour of adding Marlow Bottom, and specifically meaning here area covered in the area between Burroughs Grove Hill at the eastern edge, down to Marlow Bottom Road up to Ragman's Lane at the and then Ragman's Lane up to Handy Cross as its eastern edge, being in a single ward. They are completely integrated, Marlow Bottom is not an independent area away from Marlow, and there is no gap in the buildings between them. It definitely makes sense to me, and I would like to communicate that.
