### Organisation Name:

### Comment text:

The proposal cuts the Old Town into two along the centre of the A40. This hives off the parish church of St. Mary's, the Cricket Club, Rugby Club, weekly and monthly market and the town's green belt from the rest of the town where the Town Hall, Station and Library are located. It also divides the Old Town Conservation Area into two. It is a very unnatural boundary. A better boundary to the south would be the M40. The northern boundary should be Forty Green Rd and Finch Lane, so that all of the Seeleys Estate, Penn Rd, Sandelswood Estate, Copperfields Estate are included in Beaconsfield because those estates are currently divided into two also along an unnatural boundary.
