Comment text:

We would like to have a separate councillor for Farnham Royal as there is no one to represent our challenges or act on it. Let me highlight a few 1. Part of Farnham Royal does not have access to Fibre optic broadband.. close to 300 houses. Nothing is being done despite us raising it with the local councillor. 2. There is a stretch of road after Dukes head pub to the village which is 40mph. There is a school in the 40 mph zone. We have never seen anyone drive at 40... it's always above 45 or 50mph to the extent that when lorries drive at that speed we can feel the vibrations inside our home. We have made several requests to either install a speed camera or change the speed to 30 or have some speed bumps. Again we have not had any success so far.. I can highlight many issues but there's no one to hear them out lest act on it. Hence we need to have a separate councillor who can empathise with our situation and act on it.
