Basildon Borough Boundary Review 2022 Draft proposals for 14 wards x 3 councillors = total 42 councillors Submitted by Malcolm Reid 208 Beambridge Basildon SS13 3NF malcolmreid@blueyonder.co.uk Notes The total 2028 electorate is 142805 = an average ward electorate of 10200 These proposals mean there are no changes to seven wards (50%) -Billericay East, Billericay West, Fryerns, Laindon Park, Lee Chapel North, Pitsea North West and Wickford North. The Fryens Ward is slightly larger than the others but only slightly larger than the proposed Burstead Ward and I believe in line with the variance allowable. Plus it maintains a distinctive and long standing Basildon community to remain in one ward. New Wards: Langdon Hills. Lee Chapel South polling district (PD) added from Nethermayne Ward. This reverts back to a ward that was in existence prior to 1979. Nethermayne – to be renamed Clay Hill Ward. This is the remainder of the current Nethermayne ward plus Bardfield and Vange Hill PDs form the current Vange Ward. I am suggesting that this be renamed Clay Hill Ward. This is the main road that traverses the whole ward rather than the Nethermayne road which is now on the western edge of the ward. Pitsea South East. St Chads PD added from the current Vange Ward. This means that both sides of Vange High Road will be in the same ward, St. Martin's – to be renamed Barstable Ward. Luncies PD added to the current ward. This almost re-establishes the old Barstable Ward that existed prior to 1979. I am suggesting that this be renamed Barstable Ward to reflect the change. Burstead. Support Steeple View PD being added from Crouch Ward Crouch Ward. This brings together the more rural parts of Basildon Borough plus the western PDs of Wickford.
