### Comment text:

Given the population of Paddock Wood has increased dramatically over the passed few years, and is going to increase even more in the near future because Tunbridge Wells Borough Council has earmarked it for major residential development, I think the number of Councillors for Paddock Wood should be increased. Paddock Wood is having large developments imposed on it by TWBC without any consideration being given to the infrastructure, all of which is in dire need of updating, be it roads, schools, medical facilities, dentists, sports facilities, flood protection, or sewage systems. The residents of our village / town should be given a greater say in what goes on within it's boundaries, not just be dictated to by TWBC, which seems to happen at the moment. We need a stronger voice on TWBC to make them listen to our concerns.
