Comment text:

The idea of incorporating Paddock Wood West Ward into the Capel Ward makes absolutely NO sense at all. Paddock Wood as a whole, East & West, faces a large and unwelcome expansion due to unreasonable housing targets set by Central Government without any attention paid to increasing and improving the existing infrastructure to cope with this expansion. Paddock Wood must be treated as a unified whole as it's location, environment and residential constitution has distinctly different attributes from Capel. If the boundaries need any change, the reason for which is not at all obvious anyway, it would be better to make it a single Ward but because of the population expansion to allocate it all 4 councillors. Dividing Paddock Wood arbitrarily through the middle using the main B2160 makes no sense at all. The fact that the population expansion is predominaantly on the East side is simply because that is the only practical area that can be developed, but this impacts on the WHOLE town and not simply the East Ward.
