### Comment text:

Why 54 councillors? The ones we have are all self serving publicly paid parasites who I wouldn't trust running a bus stop. Have 1 per ward as they do nothing for their residents anyway. Essex County Council have the main control over roads and rubbish collections and they are even worse. No one is interested in what people actually want, they just want to flood the area with houses and be in a race to the bottom to emulate London. Efdc leadership isn't fit for purpose, adding more cronies to their old boys club just lines their own pockets and pander to the lowest denominations to influence their voting. Build a wall across epping new road and put all the councillors in jail would be a good start.
