Comment text:

Really confusing for my members and potential new members to my business as they'll be looking for Roebuck or Broadwater and it is rather costly because now I'm going to have to change all of my advertising banners posters leaflets to say Roebuck instead of Broadwater which is going to cost me money I just cannot afford. I don't think this has been thought through and I don't see what was wrong with with the names that we've had for years and people have gotten used to. This is costing money that can be spent elsewhere helping people that cannot afford to rent or pay the gas bills instead of doing something stupid like renaming all of the areas. I disapprove
