Comment text:

Wellesley Road in cheltenham is currently split with part of it in St Pauls and part in Pittville. Part of it acts as the boundary between the two wards. On one side it is the back of Clarence square and Wellington square and the other has seen many new developments over the past five years. It would benefit from clarity to have the whole road placed within Pittville rather than just one part of one side of the road. It will also help to even out the population which is somewhat higher in St Pauls than Pittville. File: map Wellesley Rd in St Pauls & Pittville
