Comment text:

I am unable to see your map, There seems to be a glitch with your consultation system, however, I understand there is a proposal to make St Pauls, which is currently part of Cheltenham, part of the Tewkesbury constituency. Central Cheltenham residents should be represented by a Cheltenham MP. The only logic I can see for giving this part of the town center to Tewkesbury is for gerrymandering purposes to help the Conservative party retain this marginal seat. Please leave our town center intact within the Cheltenham constituency,
