Comment text:

I object to the proposed boundary change. The idea to split Church Langley is a ridiculous one. We are one of the largest housing developments in Harlow. Splitting an area in two, and making it uncertain as to who we are meant to talk to in regards to issues makes no sense. We will end up with a situation where the buck will be passed from one councillor to another as it's "not their part of Church Langley". Where now we have ward councillors that live in Church Langley and deal with the same issues we do, both sides could end up with a councillor that lives nowhere near the estate and not as approachable as we have currently.
