Comment text:

The boundary for the Bedwardine is bordered my massive housing expansion with the majority of them needing to travel through the Bedwardine ward to reach the river bridges. We already have issues with the Uni, parking, additional traffic, noise, St John has a lack of parking, and the small estate shopping areas are not able to cope with the additional vehicular. I live on Monarch Drive and there is a constant problem with parking at the shop area, double yellow lines have been added, but due to the lack of policing in the area the restrictions are rarely observed. The infrastructure is at breaking point, which is illustrated clearly in rush hour trying to get over the bridge, and is getting worse.
