Comment text:

How will the new allocated housing in each area change as with the new wards the new lubbethorpe development will separate and this may be used to justify more new houses elsewhere. There's already too many on greenfield sites to support leicesters growth. The blaby local plan has indicated lots of green sites for development and even if listed as unsuitable in one plan that only means no development at present and that changes in the next plan. With the proposed workplace parking levy all new houses should only be built with one parking place, heat pumps for heating and bus services to the city should be effective before housing is built. Otherwise the damage to the environment, high traffic levels will cause air pollution especially near the M1 will be at illegal levels.
