### Comment text:

I am a Ward Member foStaplehurst and also Vice-Chair of Staplehurst Parish Council. As matters currently stand our Ward is exactly the same as our Parish. Our Parish boundary is a historical boundary and to have it changed for purely arbitrary reasons would seem both illogical and would generate concerns for many residents. The Parish Council and our Ward Members work very closely together; we are a close team and this is very much to our residents advantage. The predicted electorate is just under 6000, which gives our current two member ward circa 3000 electors per resident, which is basically in line with the average. Please retain the current historic boundary, which means a lot to us, and our current two member ward, which I believe works very well.
