### Comment text:

As the District Councillor for Baldwin Ward, I endorse the views of Holt Parish Council in respect of the consultation on ward boundaries. For many years Holt has had a close association with the other villages in the ward through its community links and identities. It is central to local life in that it provides the only Post Office and stores, childrens' play area, farm shops and cafe. If a greater number of electors is needed , it seems more appropriate to include Little Witley whose residents can frequently be seen in Holt using the local services on which they rely. The original submissions from the two main political groups on MHDC supported this. The new proposals from Abberley Parish Council would achieve an effective solution.
