Subject: Number of Cllrs for Bucks

Categories: Submissions, Matt

I see there is a review of the number of Cllrs. for Bucks.

I would consider reducing the number to under 100. This would save me and other tax payers over £600,000 in allowances per year.

I see there are too many Cllrs. and not enough of them on committees and if they are, the attendance record is poor. If they do not turn up to full council some leave early and are not there for the recorded votes. This shows their lack of commitment.

I watch the meetings with interest on line and the attitude of the leader and the chairman are poor.

So under 100 would make full council more appropriate and desicion making more slick at committee level.

Best regards,

Sherrilyn Bateman Cllr.
