Comment text:

To lose 2 councillors and a ward on the island is totally wrong, if anything we should retain West Ward and have 3 councillors in it as there is going to be built over 300 homes plus they are now taking into account a few hundred park homes which they didn't before. By taking away West Ward means expanding Central ward and Winter Gardens both of which are large wards already with big population. And we can just about manage now with 3 councillors each so to expand them to take in West Ward as well we would each need an additional Councillor. Why can't councillors be taken from wards on the mainland as some of those wards are much smaller with less population than the wards on Canvey Island? Thank you
