1. Introduction & Summary

- 1.1.1 This report comprises Liverpool City Council's submission to the Local Government Boundary Commission for England (LGBCE) on a proposed warding pattern for Liverpool from 2027. This represents the second stage in the electoral review process.

Recommendation

- 1.2.1 **Liverpool City Council recommends a warding pattern of 80 wards comprising 75 single member and 5 two member wards based on a council size of 85** and in accordance with the following rationale –
- (i) the requirement placed upon the council by the Secretary of State, having produced a revised submission to the LGBCE reducing the council size to 85, to consult and consider consult a submission approved by the Commissioners based on a predominantly single member ward pattern with the intention of increasing accountability to the electorate in Liverpool. The Directions also require a wider governance transformation and improvement programme which are the subject of separate reporting frameworks;
 - (ii) the future strategic vision for the city and changes in the nature of the relationship between residents and the council which are seeking to achieve greater empowerment of local communities in designing solutions to the challenges that they face and a modal shift in the delivery of services to residents and communities;
 - (iii) ensuring levels of elected representation for all the city's communities are commensurate with the challenges and opportunities facing the city;
 - (iv) the intention of improving the effectiveness and transparency of governance and decision-making arrangements in the short and medium term which will lead to opportunities for greater efficiencies;
 - (v) the intention to consider the required number of Councillors actively involved and serving on bodies with a role in the council's formal decision-making structure, which is part of the governance improvement programme; and
 - (vi) changes in the way that residents interact with the council and communicate with Councillors developing and implementing modern practices reflecting the aspirations of the council moving towards a digital first organisation using technology to increase engagement in and participation with the council.

2. Background

- 2.1.1 Liverpool is a very different place to when our last boundary review was undertaken in 2004. The city has seen sustained population growth allied with regeneration and social transition which has reshaped the economies and communities of the city.
- 2.1.2 Liverpool's population has grown significantly over the past two decades and this trend is forecast to continue, reflecting the city's key role as a major economic driver for the city region, north-west and UK economy overall.
- 2.1.3 Following 50 years of severe economic and population decline, Liverpool's renaissance since has been remarkable. Since the 1980's the city has benefitted from substantial regeneration delivered through a combination of UK Government and EU funding alongside private sector investment. However, Liverpool remains one of England's most deprived districts, with 49% of neighbourhoods amongst the most deprived ten percent in the country. The legacy challenges of deprivation and inequality remain significant and require sustained long-term intervention.
- 2.1.4 This progress is not without challenge. The recognised findings of the Best Value Inspection report and appointment of Commissioners by the Secretary of State have shone a spotlight of scrutiny and challenge on every aspect of how the council operates and is structured. This submission is therefore set against a context of Directions from Government, Commissioner oversight and an improvement journey to which the council is committed.
- 2.1.5 The warding patterns proposed in this submission form the critical building blocks for future community representation, community identity, sense of place, and set the context for new, neighbourhood focussed structures which will shape the delivery of services for years to come.
- 2.1.6 The proposed ward pattern and boundaries set out in this submission – supported by detailed ward profiles – provide a model which wholly represents the communities of Liverpool, demonstrating clearly identifiable communities with shared interests and identities within clearly recognised geographical boundaries.
- 2.1.7 This submission proposes a warding pattern, boundaries and structures which meet the three principles which are the statutory basis against which the LG BCE will make its decision -
 - a) delivering electoral equality for local voters.
 - b) interests and identities of local communities; and
 - c) effective and convenient local government.

3. Warding Pattern

- 3.1.1 The starting point for the warding pattern has been data and forecasts generated through the Liverpool City Council Forecasting Model (LCCFM). LCCFM projections show that the city's population is set to reach 569,583 by 2027, with those age 17+ from which the electorate is drawn reaching up to a potential 466,894 and a projected electorate of 365,508.
- 3.1.2 The council's submission on council size – previously submitted – was supported by comprehensive methodology for population and electorate forecasts and with detailed supporting data. The LCCFM as previously submitted by the council explains why the increase in the population is not matched by the same proportion as the electorate.
- 3.1.3 Simply put, this is because not all of the population is eligible to register to vote and because even among the eligible electorate the impact of Individual Electoral Registration (IER) has been felt. It is in the neighbourhoods and communities with the most frequent movers (typically areas with a high proportion of young professionals, graduates, students, and transient populations of mixed origin) where IER has had the biggest negative impact.
- 3.1.4 Many of these residents are not registering at all, not keeping their registration up to date or may also have left leaving their registration active. It is similarly seen across all polling districts that there can be a lag between electoral roll updates and changes in occupancy due to deaths, residents moving into or away from the area outside of these categories seeing an artificial uplift effect. This is reflected in our projections.
- 3.1.5 The proposed warding pattern has in turn been developed to reflect the well-established physical 'building blocks' provided by the various natural and man-made physical attributes in the city. This approach – combined with a review of how residents and communities identify on a local level – resulted in an indicative community map of Liverpool which was then used as a starting base from which to apply the three criteria which govern the second stage of the review process.
- 3.1.6 Starting from a pattern of 85 indicative communities and guided by clear forecast models on future development and movements of people, a pattern of 80 wards emerged, some of a larger geographic size but predominantly equal size in terms of electorate and crucially meeting each of the 3 criteria which the LGBCE apply to the second stage of the review process.

4. Delivering Electoral Equality

- 4.1.1 The last boundary review for Liverpool was undertaken in 2004, when the population was 448,091 and an electorate of 338,392. Since 2004 substantial regeneration has continued which, combined with natural migration has seen the population grow to 500,474 in 2020, an 11.7% increase.

- 4.1.2 LCCFM projections show that the city's population is set to reach 569,583 by 2027, with those age 17+ from which the electorate is drawn reaching up to a potential 466,894 and a projected electorate of 365,508 against which the proposed warding pattern is based.
- 4.1.3 For electorate forecasting purposes, 2019 electorate data was used as a base line as this was the mid-point in the electoral cycle and is not artificially impacted by General Elections and Referenda or the absence of local elections. This was then combined with Office for National Statistics (ONS) mid-year population estimates for 2015 to 2109 at the lowest available geography (Census Output Area – 1,584 such communities in Liverpool) as the bedrock which underpins the forecast model.
- 4.1.4 There are very few neighbourhoods where the number of people has not increased since the last electoral review in 2004. however as actual and forecast data shows, this is not consistent. Some areas do not have substantial development land available and change at a slower rate. Others have large scale sites earmarked for development resulting in substantial changes in population and electorate.
- 4.1.5 Based on these historic population and electorate, trends a linear forecast was used to predict the 17+ population for each Output Area in 2027. These geographies were then amalgamated and apportioned into our existing 178 polling district geographies.
- 4.1.6 A detailed analysis of future demographic change, population growth and new residential completions, which are the key measures most likely to impact on the number of the electors up to 2027, provides supporting evidence for proposals in those areas where higher than average growth is anticipated. This is in turn reflected in how the warding pattern has evolved – to meet the realities on the ground.
- 4.1.7 Estimated electorate populations for all proposed planning development sites (assuming 100% occupancy in 2027) based on delivery rates and unit size for every area of the city were calculated and then projected forward. When combined with robust projected future numbers households of multiple occupancy this produced an overall estimated electorate in 2027, with an adjustment rate applied based on an Individual Electoral Registration methodology.
- 4.1.8 This forecasting method has formed the basis on how the new ward boundaries were drawn to meet the range of acceptable tolerance required by the LGBCE for equality of electoral representation based on the calculation below –

Ward Size	Max 10% below	Max 5 % below	Target Electorate	Max 5% above	Max 10% above
1 Member	3,870	4,085	4,300	4,515	4,730
2 Member	7,740	8,170	8,600	9,030	9,460
3 Member	11,610	12,255	12,900	13,545	14,190

- 4.1.9 All the 80 proposed wards fall within the range of 10% above or below the citywide average electorate for 1 member or 2 member wards, as illustrated in the table below –

Number of wards and variance range							
Ward Size	10% below	6-9% below	1-5% below	Target Electorate 4,300	1-5% above	6-9% above	10% above
1 Member	5	12	18	4	25	8	3
2 Member	0	2	0	0	1	0	2
3 Member	N/A	N/A	N/A	N/A	N/A	N/A	N/A

- 4.1.10 The warding pattern for Liverpool whilst providing for citywide electoral equality is not merely a numerical exercise. The proposed wards represent the real communities of Liverpool, supported by compelling data which then is taken beyond wards to define how communities interact and engage. This will shape how the council is structured, delivers services and interacts with communities for years to come and represents a fundamental realignment of the relationship between council and residents.

5. Interests & Identities of Local Communities

- 5.1.1 The starting point for this stage of the review was understanding how forecast data translated to reflect the communities of Liverpool. That sense of community and place can be interpreted in many differing ways all of which are equally valid. The perceived boundaries between communities and areas are often blurred and overlap which makes the development of any warding pattern challenging.
- 5.1.2 The council's approach to defining communities was therefore to combine data from both the LCCFM and ONS with both current and historic records of Liverpool, producing a map of indicative communities, based on –
- community identities (current and historical);
 - demography;
 - physical infrastructure and landscape; and
 - natural or manmade boundaries – principal highways, railway lines, parks and greenspaces.
- 5.1.3 The challenge then turned to how to reflect the identities of the indicative communities and to choose boundaries which are fair and consistent throughout the entire city. Working with the cross-party working group and guided by the LGBCE criteria, the following principles were applied –
- boundaries as far as possible to be located to rear of residential properties to unify roads and communities
 - boundaries located in line with or running along the mid-point of designated A or B roads or other main roads as these act as natural divisions; and
 - natural or man-made to be used including as railway lines, embankments, retail or industrial parks, woods, parks, greenspaces and

watercourses.

- 5.1.4 The indicative communities map and the boundaries principles set out above acted as the starting point to assist and from which the proposed ward boundaries have been derived, guided throughout by the three criteria outlined above which govern this stage of the review. A comprehensive analysis of historic, current and forecast data has in turn been completed which shows the locations of –
- parks and greenspaces of all sizes;
 - council facilities and services;
 - educational institutions;
 - health services;
 - transport and highway networks;
 - recreational facilities; and
 - retail.
- 5.1.5 The location of these facilities and services acts as a guide to identify areas around which a community has evolved and established, as well as acting as a draw to a wider area or neighbourhood and which links all of Liverpool's communities together.
- 5.1.6 Combining this information with forecast data and applying the 3 criteria for developing a warding pattern results in the proposals set out in Appendices 1-3 of this report. The proposal for each ward has been shaped by data which supports a clear sense of community and place and with direct reference to each of the LGBCE review criteria.

6. Effective & Convenient Local Government

- 6.1.1 Each of the 80 proposed wards represent a unified and recognisable community and a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative.
- 6.1.2 The council as part of its improvement journey and delivering against the aims of the City Plan and emergent Council Plan is undertaking a radical transformation. The challenges facing Liverpool are in some cases unique but in the main are consistent with those faced by every city across the world and include –
- reducing carbon emissions and tackling climate change;
 - helping people become more active to improve health and well-being;
 - reducing loneliness by developing that sense of community and connection; and
 - improving and re-animating our high streets and neighbourhoods that have suffered long-term stagnation and decline.
- 6.1.3 This review provides a basis for how the council reshapes itself for the future.

- 6.1.4 For purposes of how proposed wards and communities interact, Liverpool's approach is the concept of the 20-minute neighbourhood. To be clear, this approach is not unique. Other cities across the UK, Europe and beyond have varying models but which all amount to the same. The benefits of approaching how and we and our partners view communities and deliver functions are wide ranging and include healthier communities, reducing inequalities cleaner air, stronger local economies, and better resilience against climate change.
- 6.1.5 So, what is the 20-minute neighbourhood? Simply put take each of the 80 proposed wards. Then for a typical person average walking pace is 3 miles per hour. For a walking distance of 20 minutes or one mile from the boundary of each ward, that defines a 20-minute neighbourhood where essential functions are accessible. This approach takes every proposed ward in Liverpool and reaches out to recognise the realities of our communities – the ward boundaries exist in maps only. People move, travel and interact locally and beyond ward boundaries which this structure recognises.
- 6.1.6 Each proposed ward is supported by a detailed ward profile. Each of the 3 LGBCCE criteria are addressed directly, and the council's submission goes further to set each ward in the context of the wider communities – the 20-minute neighbourhood.
- 6.1.7 Liverpool's model for 20-minute neighbourhoods is about supporting established communities and clusters of wards where people of all ages and levels of fitness are happy to travel actively for short distances from home to access the services they need daily. That these services and functions are accessible to everyone whatever their budget or physical ability and without having to use a car. The council's submission and detailed evidence supporting each ward profile provides the foundation for this approach.
- 6.1.8 The council in developing this submission also considers that a handful of areas of the city justify an exemption to the predominantly single member warding pattern. In reaching this conclusion, the Council has had due regard to the density of population, natural community boundaries and identities and in turn the physical geography of the city.
- 6.1.9 This has resulted in 75 single member wards as well as 5 two member wards. The two member wards are concentrated in a cluster of four wards which make up most of the city centre and a two-member ward for Speke in the south of the city, reflecting areas with the highest population and electoral density and for the south of the city the extended geographic distribution of the electorate.
- 6.1.10 The council's 20-minute neighbourhood approach is fundamentally about strengthening and empowering established communities to have a direct say in how their ward and neighbourhoods change and to provide a structure for the council and partner organisations to deliver services that create places that meet the needs of the least healthy and the least well-off.

- 6.1.11 Building on the foundation of the proposed 80 wards, the council will develop its 20-minute neighbourhood model over the coming months to form a series of ward and community clusters. This will provide a structure for co-operation and support between elected members for each ward, united and working together on shared issues of local concern.
- 6.1.12 This also seeks to address a significant concern over single member wards – absence or illness of an elected member could leave a ward unrepresented and in turn discourage individuals from a wide cross section of communities and abilities from applying due to a perceived lack of support. The council's 20-minute neighbourhood approach is intended to address this directly and provide the basis for new support structures which ensure the absence of any elected member does not negatively impact on how wards and communities are represented. This will extend to include how allowances and support arrangements operate.
- 6.1.13 Ward and community clusters which emerge through the 20-minute neighbourhood model are also likely to be assigned a range of roles and responsibilities by Full Council. New forums will be established and act as an additional linkage to address with matters of local and community concern which cross ward boundaries. Any proposals will be developed in accordance with principles laid down within the City Plan and emergent Council Plan, and will seek to further enhance working with public, voluntary, private and third sector partners across the city.

7. Conclusions

- 7.1.1 In developing this submission, the council has had regard to its ongoing improvement journey and with direct reference to Liverpool's communities and electors, local identities, local need, and service structures in respect of the following areas which are a requirement of the LGBCE –
- a) **Delivering electoral equality for local voters** – the council's submission provides robust evidence which demonstrates that each councillor will each have roughly the same number of voters so that the value of each vote is the same regardless of where a resident and elector lives in Liverpool. Every proposed ward falls within +/-10% of the citywide average electorate represented by each councillor;
 - b) **Interests and identities of local communities** – the council's submission proposes a clear citywide electoral pattern which, as far as possible, avoids splitting local ties and uses clear boundaries that are easily identifiable and recognisable; and
 - c) **Effective and convenient local government** – the council's submission proposes a clear and effective warding pattern which ensures every ward can be represented effectively by its elected representative(s). These new electoral arrangements , comprising new council size and new warding arrangements, will enable the Council to conduct business effectively .

- 7.1.2 The council's warding pattern proposals have been developed in consultation with and under the oversight and direction of a cross-party working group, comprising representatives from each political group, and all materials and proposals made by the working group circulated to the Mayor of Liverpool and political group leaders throughout the review process.
- 7.1.3 Representatives appointed to the cross-party working group in turn engaged and consulted with all elected members in their respective groups and provided direct feedback the proposed warding pattern throughout the review process. A clear, consistent, structured work programme was followed by the cross-party working group based on –
- a) **an intensive work programme** – the city was divided into four zones comprising north Liverpool, city centre north and city centre south centre and south Liverpool. Large-scale zone and city-wide maps were provided at each meeting during which indicative boundaries and potential revisions for each were examined in sequence by the working group;
 - b) **robust population and electorate forecasts combined with detailed mapping data for all areas of the city** – the Technical Report and Liverpool City Council Forecast Model (LCCFM) approved by Full Council and the LGBCE at the first stage of the review formed the bedrock upon which this submission was developed. The LCCFM incorporates data from multiple sources including the Office for National Statistics (ONS), electoral roll and local planning authority amongst others;
 - c) **a methodical analysis of every area, community and neighbourhood** – supporting data produced as part of the first stage of the review comprising current and historical identified communities provided a baseline from which a warding pattern was developed. Large scale maps for each zone were examined in detail, each meeting of the working group generated extensive feedback both directly at the working group and indirectly from representatives as views were canvassed from respective political groups. Proposals or revisions were then examined by a Project Lead Officer who analysed these with due regard to the 3 LGBCE criteria of –
 - delivering electoral equality for local voters;
 - interests and identities of local communities; and
 - effective and convenient local government.During the course of an intensive 3-week work programme, a total of 76 iterations of the warding pattern were produced, assessed by the Project Lead Officer against these criteria and reported on to the working group;
 - d) **clear and consistent principles for the location of boundaries based as far as possible on natural or well-acknowledged boundaries** – working with the cross-party working group and guided by the 3 LGBCE criteria, the following principles were applied –

- boundaries as far as possible to be located to rear of residential properties to unify roads and communities;
- boundaries located in line with or running along the mid-point of designated A or B roads or other main roads as these act as natural divisions; and
- natural or man-made boundaries to be used including as railway lines, embankments, retail or industrial parks, woods, parks, greenspaces and watercourses.

e) **a consensus-led approach to suggested names** – as each iteration of the warding pattern was produced, representatives on the working group provided continuous feedback from across all political groups, drawing on extensive local knowledge of key historic physical and social identifiers from which names for proposed wards were drawn.

- 7.1.4 Representatives appointed to the cross-party working group have in turn engaged and consulted with all elected members in their respective groups and provided direct feedback on the proposed warding pattern throughout the review process. This has been an inclusive and open process throughout.
- 7.1.5 It is recognised that the driver of this review – both for a reduced council size and a move to a warding pattern based predominantly on single member wards – has come from the Directions. A key component in meeting the requirements of the Directions will be to deliver against the council's Strategic Improvement Plan, allowing for a positive reset of both the council's governance and its relationships with citizens, service users, business community and partners.
- 7.1.6 This is designed to increase transparency and trust in the council, change the culture and enable the council to deliver on its ambitions in both the City Plan and emergent Council Plan. The council has a positive view of the future relationship between the council and its electorate - the proposed warding pattern, making local representatives closer to, more directly identifiable and accountable to the communities they represent is an essential part of the transformation and improvement journey for the council, enabling and empowering local communities to do more for themselves.
- 7.1.7 The proposed warding pattern is an essential element in the council's improvement journey, enabling the council to discharge its statutory and regulatory functions, fulfil its duty as a strategic place maker, and deliver high quality and efficient services. These considerations have been made recognising the future improvements in service delivery and governance that the council is seeking to implement and have informed how these proposals have evolved.
- 7.1.8 This submission and accompanying appendices therefore conclude the second stage of the review process on the part of the council, delivering a clear, structured, well-evidenced proposal for a ward pattern of 80 wards comprising 75 single member and 5 two member wards, based on a council size of 85 which has been approved by Commissioners and meets the requirements of the Directions.

Ward Profile

Criteria	
Ward No.:	1
Proposed Name:	Fazakerley West Ward
Alternate Name options:	Fazakerley
Proposed No. Councillors:	1
Electorate 2027:	4,027
Citywide Electorate Average:	4,300
Variance (%):	-6% (273)
Former Ward(s):	Parts of former wards – Fazakerley Ward
Former Polling District(s):	All or part of – FAA, FAB, FAD

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and is 6% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The remaining boundaries are to the west following the B road of Warbreck Moor and then turning to follow part of the A503 Longmore Lane and then turning south along the rear of Higher Lane and then east following the route of the local Merseyrail line. The northernmost edge of this ward is defined by the boundary with adjacent Sefton MBC.</p> <p><u>Infrastructure & Environment</u> The landscape of this ward is predominantly flat in nature and comprises a mainly built-up urban environment except for Kirkdale Cemetery and allotments.</p>

Criteria	Reason																																
	<p>Characterised mainly by residential properties, this ward largely comprises a mix terrace and semi-detached dwellings as well as several conversions into multiple occupancy.</p> <p>Access to transport networks within a 20-minute walking distance include 3 train stations within nearby Walton Park (3).</p>																																
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>																																
Reflecting community interests and identities	<p>This ward represents a recognisable and cohesive community, with the following facilities and services within ward boundaries –</p> <table border="1"> <thead> <tr> <th>Services & Facilities</th><th>Number</th></tr> </thead> <tbody> <tr> <td><u>Educational</u></td><td>1</td></tr> <tr> <td>Primary Schools</td><td>1</td></tr> <tr> <td>Barlows Primary School</td><td></td></tr> <tr> <td><u>Health</u></td><td>2</td></tr> <tr> <td>GP Practices</td><td>1</td></tr> <tr> <td>Pharmacies</td><td>1</td></tr> <tr> <td><u>Council Services</u></td><td>1</td></tr> <tr> <td>Childrens Centre</td><td></td></tr> <tr> <td>Fazakerley Children's Centre</td><td>1</td></tr> <tr> <td><u>Recreational</u></td><td>1</td></tr> <tr> <td>Public Park or Gardens</td><td>1</td></tr> <tr> <td><u>Retail</u></td><td>2</td></tr> <tr> <td>Post Office Counter Services</td><td>1</td></tr> <tr> <td>Supermarket</td><td>1</td></tr> <tr> <td>Total Services & Facilities</td><td>7</td></tr> </tbody> </table> <p><u>20-Minute Neighbourhood</u> No ward or community exists in isolation. Ward No.:	2
Proposed Name:	Orrell Park Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	3,916
Citywide Electorate Average:	4,300
Variance (%):	-9% (384)
Former Ward(s):	Parts of former wards – Fazakerley, Warbreck
Former Polling District(s):	All or part of – FAD, WAA, WAE

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and close to the lower limit of tolerance at 9% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<u>Boundaries</u> Moving from east to west, this ward follows the route of the A59 turning briefly to take in part of Hall Lane and the A506 Longmoor Lane to its junction with the A59. The boundary then turns northward to follow the line of disused former railway and then south to follow the route of the local Merseyrail network. The southern boundary runs in an irregular pattern along the rear of Chelworth Avenue to its eastern extreme and then north to follow the boundary with Sefton MBC. This represents a recognisable area with clearly defined boundaries.

Criteria	Reason													
	<p><u>Infrastructure & Environment</u></p> <p>The landscape of this ward is predominantly flat in nature and comprises a mainly built-up urban environment. There is very limited green space in this ward, the nearest areas being Kirkdale Cemetery and allotments which can be found in adjacent Fazakerley West (1).</p> <p>Characterised mainly by residential properties, this ward largely comprises a mix terrace and semi-detached dwellings as well as several conversions into multiple occupancy.</p> <p>Access to transport networks within a 20-minute walking distance include 3 train stations within nearby Walton Park (3).</p>

Ward Profile

Criteria	
Ward No.:	5
Proposed Name:	Aintree Ward
Alternate Name options:	Pirrie
Proposed No. Councillors:	1
Electorate 2027:	4,656
Citywide Electorate Average:	4,300
Variance (%):	+8% (356)
Former Ward(s):	Parts of former wards – Fazakerley, Norris Green
Former Polling District(s):	All or part of – FAA, FAB, NGG, NGH

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and is 8% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The northerly boundary of this ward is formed from the A5056 Longmoor Lane to its junction with Lower House Lane – excluding a triangular section of numbered named avenues – to its junction with Lowe Lane. The boundary then turns south using Lower Lane to its junction at the A5080 East Lancashire Road. The southern boundary runs west to the junction with the B5187 Stopgate Lane/Long Lane then heading north to the junction with Longmoor Lane.</p> <p><u>Infrastructure & Environment</u> This ward is situated to the north of East Lancashire Road and Walton Hall Avenue, two major thoroughfares into the city.</p>

Criteria	Reason																		
	<p>This ward includes Fazakerley Hospital and the relatively new HMP Prison Fazakerley and there are also extensive areas of industrial operations and warehouse buildings off long lane. The area includes large areas of open space particularly around the prison together with a large area of allotments.</p> <p>There is a large area of residential properties to the west of Long Lane, comprising some traditional terraced housing together with a larger area of more modern development from the 1980s comprising mainly owner-occupied semi-detached housing.</p> <p>There is a large area of open space at the nearby Walton Hall Park which also includes extensive football facilities and Jeffrey Humble playing fields and Sparrow Hall playing fields are within the ward boundaries. Everton Cemetery also provides a large area of open space within the ward.</p>																		
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and lower limit of tolerance at 10% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u></p> <p>The westerly boundary of the ward runs south from the A5058 Queens Drive along Stuart Road to its junction with the A59 County Road, then heading east following the route of a disused railway line until it meets the junction of Cherry Lane/Cherry Avenue where it turns north west to meet Queens Drive before a north east run along the A580 to include the ships roads within a unified community, before heading north east to the authority boundary with Knowsley MBC and running to the local Merseyrail line back towards Long Lane.</p>

Criteria	Reason																									
	<p><u>Infrastructure & Environment</u></p> <p>The ward is predominantly residential in nature comprising terraced streets from the turn of the twentieth century. Queens Drive forms the circular road to the north eastern boundary of the ward. Walton on the Hill itself is a Conservation Area from which the ward is named, comprising several attractive Victorian properties including church. Alsop school and a sports and recreation building are located to the east of the conservation area.</p>

Variance (%):	0% (1)
Former Ward(s):	Parts of former wards – Anfield, Tuebrook & Stoneycroft
Former Polling District(s):	All or part of – ANB, TSG

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and has almost exactly the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its northern most point the boundary runs south east along the railway line to where it meets the A580 Townsend Lane where it turns south west to follow this route to the junction with Priory Road. Heading north along Priory Road the boundary continues along the west of Anfield Cemetery to its junction with Walton Lane.</p> <p><u>Infrastructure & Environment</u> This ward is characterised a high concentration of both small and large terrace properties and with limited open space. Larger open spaces are concentrated mainly in nearby Anfield South at the historic Stanley Park. This ward also includes Anfield Cemetery.</p>

Criteria	Reason																								
	Retail provision for residents from this and nearby areas are located within the nearby wards in the form of County Road District Centre, which is a traditional linear shopping area providing a range of good and services.																								
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. Ward Profile

Criteria	
Ward No.:	17
Proposed Name:	Croxteth Country Park Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	4,496
Citywide Electorate Average:	4,300
Variance (%):	+5% (196)
Former Ward(s):	Parts of former wards – Croxteth
Former Polling District(s):	All or part of – CXC

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and is 5% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The westerly boundary runs south along Croxteth Hall Lane to Hall Brook before heading east following the perimeter of Croxteth Country Park to the authority boundary with Knowsley MBC at Croxteth Brook. From the Brook, the boundary heads south west continuing along the perimeter of the country park to meet the River Alt and then to meet Oak Lane</p> <p><u>Infrastructure & Environment</u> This ward forms part of the wider area known as Croxteth Park and comprises newer private owner-occupied housing built from the late 1970s through to the 1990s. There are small pockets of open space together with the usual small parades of shops and similar facilities</p>

Criteria	Reason																														
	<p>typical of such areas.</p> <p>Access to open space is provided at Croxteth Country Park together with other areas of open space including areas of green belt and agricultural land.</p>																														
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 3% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The western point of this ward runs from Walton Lane north to the junction with Priory Road then heads south east to the junction with Townsend Avenue. Heading south west we now follow the avenue until turning north west along Oakfield Road which is followed until Breck Road and then along to Walton Lane again.</p> <p><u>Infrastructure & Environment</u> This ward is characterised a high concentration of both small and large terrace properties and with limited open space. This ward benefits from the historic Stanley Park which provides a key area of green and open space to the wider area.</p>

Criteria	Reason																														
	<p>This ward includes Anfield Football Stadium, home to the historic and world-famous Liverpool Football Club and sees large influxes of fans and visitors for match days, events and tours throughout the year.</p> <p>Retail provision for residents from this and nearby areas are located within the nearby Everton North (29) in the form of County Road District Centre, which is a traditional linear shopping area providing a range of good and services.</p>																														
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. Ward No.:	25
Proposed Name:	Waterfront North Ward
Alternate Name options:	Liverpool Waters
Proposed No. Councillors:	1
Electorate 2027:	4,469
Citywide Electorate Average:	4,300
Variance (%):	+4% (169)
Former Ward(s):	Parts of former wards – Kirkdale
Former Polling District(s):	All or part of – KRD, KRE

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 4% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> Bounded to the west by the Mersey, the northern boundary runs along Nelson Docks to then join the A5036 Regent Road to its junction with Blackstone Street and east to the A595 Great Howard Street. This then forms the main boundary for the east of the ward running south to its junction with Paisley Street before heading west along the southern boundaries of the Princes Half Tide Dock.</p> <p><u>Infrastructure & Environment</u> This ward surrounding is mainly industrial in character, split in two by Waterloo Road and Regent Road. Much of the area is located within Stanley Dock Conservation Area.</p>

Criteria	Reason						
	<p>The areas closest to the River Mersey are occupied by historic docks covering a length of approximately six kilometres from Royal Seaforth Dock in Sefton to Brunswick Dock south of the Pier Head. The eastern area of the ward includes the Ten Streets and Wellington Employment Area, comprising mainly commercial and industrial properties and storage yards including a timber retailer and tyre business. This area has been subject to redevelopment in recent years with several cultural and music-related venues recently opening.</p> <p>To the south east lies the Titanic Hotel and Stanley Dock Warehouse, currently undergoing conversion into residential apartments. The southern part of the dockside area is located within the Liverpool Waters Master Plan which has planning permission for large scale residential/commercial development which will re-shape the environment over the next 10-15 years. This area will see a substantial expansion of residential developments during that period with an associated increase in registered electorate.</p> <p>The south of the ward is bounded by Waterloo Docks, a successful residential development converted from former industrial warehouses.</p>						
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Citywide Electorate Average:	4,300
Variance (%):	-2% (103)
Former Ward(s):	Parts of former wards – Everton
Former Polling District(s):	All or part of – EVB, EVE

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and just 2% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The northern boundary follows the route of Walton Breck Road to its junction with the A580 Breck Road where it heads south west to meet the A5050 Heywood Street, then turning north toward Everton Valley.</p> <p><u>Infrastructure & Environment</u> This ward is characterised a high concentration of both small and large terrace properties and with limited open space. Larger open spaces are concentrated mainly in nearby Anfield South (20) at the historic Stanley Park.</p> <p>Retail provision for residents from this and nearby areas are located</p>

Criteria	Reason																																					
	within the ward in the form of County Road District Centre, which is a traditional linear shopping area providing a range of good and services.																																					
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward Profile

Criteria	
Ward No.:	40
Proposed Name:	Kensington South Ward
Alternate Name options:	Kensington Reservoir
Proposed No. Councillors:	1
Electorate 2027:	4,322
Citywide Electorate Average:	4,300
Variance (%):	+1% (22)
Former Ward(s):	Parts of former wards – Central, Kensington & Fairfield
Former Polling District(s):	All or part of – CEC, KFE, KFF, KFG

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and just 1% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its north west corner, the boundary runs east along the A57 Kensington/Prescot Road to its junction with Laurel Road where it heads south before turning east at Holly Road following Edge Grove to the railway line then south to the junction with the A5080 Edge Lane. This is then followed west until the junction with the A580 Low Hill.</p> <p><u>Infrastructure & Environment</u> This ward comprises mainly residential areas, with housing stock characterised by a mixture of post war semi-detached dwellings, with infill pockets of newer dwellings throughout the ward.</p>

Criteria	Reason																								
	<p>Kensington acts as a boundary and hosts a range of retail provision with the adjacent with Kensington North (39) and which runs along one of the main routes in and out of the city centre forming an extension of Edge Lane, itself is a continuation of the M62 motorway. This area includes traditional linear type retailing with some more modern investment in the core retail areas.</p> <p>Several small pockets of green spaces are to be found in both this ward and adjacent Kensington North.</p>																								
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>																								
Reflecting community interests and identities	<p>This ward represents a recognisable and cohesive community, with the following local organisations and community groups either active or based here –</p> <table><tr><th>Group</th><th>Active/based in Ward</th><th>Active in wider city</th></tr><tr><td>Kensington Fields Community Association</td><td>Y</td><td>Y</td></tr><tr><td>Kensington Vision CIC</td><td>Y</td><td>Y</td></tr><tr><td>Ibijoke Foundation</td><td>Y</td><td></td></tr></table> <p>The following facilities and services are within the ward boundaries –</p> <table><tr><th>Services & Facilities</th><th>Number</th></tr><tr><td><u>Educational</u></td><td>4</td></tr><tr><td>Primary Schools</td><td>4</td></tr><tr><td>Kensington Community Primary School</td><td></td></tr><tr><td>Phoenix Primary School</td><td></td></tr><tr><td>Sacred Heart Catholic Primary School</td><td></td></tr></table>	Group	Active/based in Ward	Active in wider city	Kensington Fields Community Association	Y	Y	Kensington Vision CIC	Y	Y	Ibijoke Foundation	Y		Services & Facilities	Number	<u>Educational</u>	4	Primary Schools	4	Kensington Community Primary School		Phoenix Primary School		Sacred Heart Catholic Primary School

Proposed No. Councillors:	1
Electorate 2027:	4,369
Citywide Electorate Average:	4,300
Variance (%):	+2% (69)
Former Ward(s):	Parts of former wards – Old Swan, Picton
Former Polling District(s):	All or part of – OSA, OSB, OSC, OSE, PCB

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and is just 2% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u></p> <p>From its upper north west corner the boundary follows the perimeter of the scrap yard and power station until meeting the B5189 Green Lane then continuing east taking in the rears of Derwent Road West and Sandstone Road East until meeting Derby Lane where it heads south and along the A5047 St Oswalds Street. At the junction with the A5080 Edge Lane the boundary turns east then south at Mill Lane before heading west to follow the railway line. At Wavertree Road the boundary leaves the railway and then turns to run through the technology park to re-join Edge Lane which it then follows east before heading north along part of the loop railway line.</p>

Criteria	Reason						
	<p><u>Infrastructure & Environment</u></p> <p>This ward includes Edge Lane which is one of the city’s main arterial route which also runs through several nearby wards including Broadgreen (43) and Wavertree Garden Suburb (50). Residents of this ward can access a large public park within nearby Wavertree Village (49)</p> <p>This ward – along with Wavertree Village (49) – are split by Wavertree railway line with a large concentration of industrial land and Wavertree Technology Park being the primary land use. This ward also includes also a large out of centre retail park with the usual national operators off Edge Lane which acts as a draw to wider areas of the city and beyond.</p> <p>Housing stock across this ward is predominantly a mixture of terrace and semi-detached properties however there are also pockets of new build dwellings.</p>						
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Electorate 2027:	9,498
Citywide Electorate Average (2 Member Ward):	8,600
Variance (%):	+10% (898)
Former Ward(s):	Parts of former wards – Central, Picton, Princes Park, Riverside
Former Polling District(s):	All or part of – CEE, CEF, PCE, PPC, PPE, RVG

Criteria	Reason
Electoral equality	This proposed ward is one of a handful of two member wards and lies within a series of recognised boundaries. This ward has an electorate at the upper threshold of tolerance at 10% above the citywide average electorate for a two-member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<u>Boundaries</u> From its northernmost point the boundary runs east along the A5047 then south along Irvine Street onto Wavertree Road to then head south along Overbury Street. Heading west at Falkner Street and following the rear of properties on Aigburth Street, the boundary then heads south west along Upper Parliament Street until Hope Street where it turns north until turning west onto Upper Duke Street and again north along Rodney Street. At Brownlow Hill the boundary heads east onto Oxford Street and past Abercrombie Square before heading north along Crown Street.

Criteria	Reason																								
	<p><u>Infrastructure & Environment</u></p> <p>This ward includes large areas of the Knowledge Quarter and the campuses of both the University of Liverpool and Liverpool John Moores University. The south of the ward is primarily centred around the Georgian Quarter around Canning Street and Falkner Street, which consist of large Georgian terraced properties which are quite often in multiple occupancy.</p> <p>A significant area of the ward is situated within Canning Street Conservation Area. This ward also includes the Liverpool Institute of Performing Art and Liverpool Women’s Hospital.</p>																								
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

City Council**

Ward Profile

Criteria	
Ward No.:	47
Proposed Name:	Edge Hill Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	4,256
Citywide Electorate Average:	4,300
Variance (%):	-1% (44)
Former Ward(s):	Parts of former wards – Picton, Princes Park
Former Polling District(s):	All or part of – PCB, PCD, PCE, PPC

Criteria	Reason
Electoral equality	<p>This proposed ward falls within a series of recognised boundaries and is just 1% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.</p> <p>Whilst at the limit of tolerance, this ward benefits from clearly defined boundaries that justify this electorate size.</p>
Strong, easily identifiable boundaries	<p><u>Boundaries</u></p> <p>From its westmost point, the boundary runs north along the A5047 Edge Lane before heading south along Innovation Boulevard until meeting the B5178 Picton Road which it follows east until Cecil Street where it then runs down the rears of properties between Cecil Street and Cranbourne Road. At the junction with the A562 Smithdown Road the boundary runs west and on to Upper Parliament Street before turning north to the rears of Aigburth Street to Falkner Street and continuing east until Overbury Street where it turns north.</p>

Criteria	Reason																		
	<p><u>Infrastructure & Environment</u></p> <p>The landscape of this ward is predominantly flat. The area benefits from Wavertree Botanical gardens which is one of the larger local areas of greenspace - residents from the adjacent wards of Arundel, Picton and Smithdown Dales are able to access this within a 20-minute walk. Several smaller infill open spaces also exist across the ward.</p> <p>The housing stock of this ward differs somewhat from its near neighbours and comprises a mix of more modern terraced and semi-detached dwellings, many of which have been erected in the last 20 years as part of the HMRI programme.</p> <p>Retail facilities are concentrated along the Edge Lane District Centre which falls partly in this ward, and residents also access both the Smithdown Road North District Centre and Lodge Lane Local Centre in nearby wards. Several industrial sites are also to be found in the northern part of this ward.</p>																		
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size to enable effective representation by an elected local Councillor.</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it may be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics. These linkages will aide the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>																		
Reflecting community interests and identities	<p>This ward represents a recognisable and cohesive community, with the following local organisations and community groups either active or based here –</p> <table><tr><th>Group</th><th>Active/based in Ward</th><th>Active in wider city</th></tr><tr><td>Asylum Link Merseyside</td><td>Y</td><td>Y</td></tr><tr><td>Merseyside Refugee Support Network (MRSN)</td><td>Y</td><td>Y</td></tr><tr><td>Al Ghazali Multi Cultural Centre</td><td>Y</td><td>Y</td></tr><tr><td>Edge Hill Youth and Community Centre</td><td>Y</td><td></td></tr><tr><td>Toxteth Women's Centre</td><td>y</td><td></td></tr></table> <p>The following facilities and services are within the ward boundaries</p>	Group	Active/based in Ward	Active in wider city	Asylum Link Merseyside	Y	Y	Merseyside Refugee Support Network (MRSN)	Y	Y	Al Ghazali Multi Cultural Centre	Y	Y	Edge Hill Youth and Community Centre	Y		Toxteth Women's Centre	y

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 4% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its northwest corner, the boundary runs east along the Manchester-bound railway until meeting Mill Lane where it heads south until meeting the B5178 High Street which is then followed west before turning south along Prince Alfred Road and round along Grant Avenue until meeting Smithdown Road. The boundary then heads back north along the west coast mainline railway.</p> <p><u>Infrastructure & Environment</u> This ward includes Edge Lane which is one of the city's main arterial route which also runs through several nearby wards including Broadgreen (43) and Old Swan West (41).</p>

Criteria	Reason									
	<p>A large public park is located within the ward which serves as green and recreation space for residents of this ward and several adjacent areas.</p> <p>This ward – along with adjacent Old Swan West (41) – are split by Wavertree railway line with a large concentration of industrial land and Wavertree Technology Park being the primary land use. The main traditional retail area for this ward and surrounding communities also lies in this ward in the form of Picton Road District centre.</p> <p>Housing stock across this ward is predominantly a mixture of terrace and semi-detached properties however there are also pockets of new build dwellings. A number large Victorian semi-detached and detached dwellings can also be found in this ward which form part of Wavertree Village Conservation Area.</p>									
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward Profile

Criteria	
Ward No.:	50
Proposed Name:	Wavertree Garden Suburb Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	3,872
Citywide Electorate Average:	4,300
Variance (%):	-10% (428)
Former Ward(s):	Parts of former wards – Childwall, Wavertree
Former Polling District(s):	All or part of – CDC, WVB, WVC, WVD

Criteria	Reason
Electoral equality	<p>This proposed ward falls within a series of recognised boundaries and is at the lower limit of tolerance being 10% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.</p> <p>Whilst at the limit of tolerance, this ward benefits from clearly defined boundaries that justify this electorate size.</p>
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its north-westerly point the boundary runs east along the A5080 Edge Lane Drive until the A5058 Queens Drive where it turns south until meeting Childwall Fiveways roundabout. From here it heads west along the B5178 Childwall Road until Mill Lane where it again turns north.</p> <p><u>Infrastructure & Environment</u> This ward includes Edge Lane which is one of the city's main</p>

This ward also contains the Wavertree Garden Suburb Conservation Area.</p>																		
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward Profile

Criteria	
Ward No.:	52
Proposed Name:	City Centre South Ward
Alternate Name options:	Baltic
Proposed No. Councillors:	2
Electorate 2027:	7,866
Citywide Electorate Average (2 Member Ward):	8,600
Variance (%):	-9% (734)
Former Ward(s):	Parts of former wards – Riverside
Former Polling District(s):	All or part of – RVA, RVG

Criteria	Reason
Electoral equality	This proposed ward is one of a handful of two member wards and lies within a series of recognised boundaries. This ward has an electorate 9% below the citywide average electorate for a two-member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its north west corner the boundary heads south east ending at Upper Duke Street then south along Hope Street on to Parliament Street before running West and round on to Wapping and The Strand which it follows north to Liver Street and then back toward Upper Duke Street.</p> <p>This area is located immediately to the south of the major Liverpool ONE shopping area and bounded by The Strand to the south and Duke Street to the north.</p>

Criteria	Reason
	<p><u>Infrastructure & Environment</u></p> <p>The ward largely comprises housing varied scale and tenure as well as a mix of former industrial buildings. Many of the latter are being repurposed including to residential use which will see the density of occupation continue to increase. It is notable that a mix of purposed built commercial developments remain along The Strand/Sefton Street.</p> <p>The area is very much characterised by a series of parallel roads that run from the Waterfront towards Duke Street with a significant portion of the ward located within Duke Street Conservation Area, which has been re-developed in the past twenty years, for a mixture of residential, hotel and commercial uses, with particular emphasis on the night-time economy.</p> <p>Immediately to the east of Liverpool ONE, is a small residential estate, constructed in the early 1990's and consisting of single and two storey dwellings, more characteristic of a suburban location. There is more small-scale residential developments further along towards Cornwallis Street/Grenville Street.</p> <p>The ward also extends into parts of the Baltic Triangle, traditionally a zone for industrial use and which has changed character in recent years to include a significant amount of residential accommodation along with retained industrial uses, creative and digital industries, hotels and some food, drink and entertainment uses, both in conversion of former industrial buildings and new build schemes.</p> <p>The south east of the ward is occupied by the Anglican Cathedral and its grounds, which are Grade I listed and Chinatown.</p>
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>
Reflecting community	<p>This ward represents a recognisable and cohesive community, with the following local organisations and community groups either</p>

Ward No.:	53
Proposed Name:	Dingle North Ward
Alternate Name options:	Brunswick
Proposed No. Councillors:	1
Electorate 2027:	4,426
Citywide Electorate Average:	4,300
Variance (%):	+3% (126)
Former Ward(s):	Parts of former wards – Riverside
Former Polling District(s):	All or part of – RVB, RVC, RVD

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 3% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> Starting along the A562 Parliament Street the boundary runs east before turning south along St James Place/Park Road/Park Place until its junction with Park Street. The boundary then runs west until Beaufort Street before heading south around the disused gasholder site then heading south taking in part of Grafton Street before again turning west to meet the A5036 Sefton Street where it turns and heads north again.</p> <p><u>Infrastructure & Environment</u> This ward is characterised by its position and slopes downward toward the River Mersey and incorporates a vertical escarpment separating older areas of development from new.</p>

Criteria	Reason												
	<p>This ward has seen considerable residential development when compared to adjacent areas over the last 20 years and the area is predominantly residential, comprising a mix of pre-war terraced housing, more modern late twentieth century semi-detached properties and several mid-height 6-8 storey properties. Several non-commercial uses front on to Sefton Street.</p> <p>Retail facilities are mainly concentrated at the Park Road Local Centre in adjacent Dingle South (63) and there are also several smaller parades of shops spread across the ward.</p> <p>The nearest public space of significance is Princes Park located in the nearby ward of the same name (55), otherwise this ward is predominantly built up albeit with several small pockets of open space.</p>												
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Former Polling District(s):	All or part of – GRA, GRH, PCC

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 5% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its northernmost point the boundary runs south east along the A562 Smithdown Road until turning west at Arundel an then south through centre of Halkyn Avenue until the A5089 Ullet Road where it heads west until turning on to the B5175 Croxteth Road, then north along the rears of Hartington Road and Fern Grove. The last section is a northerly run along Lodge Lane.</p> <p><u>Infrastructure & Environment</u> The landscape of this ward is predominantly flat. Residents can access the Princes Park (55) and Sefton Park (64). This ward itself hosts Toxteth Cemetery as well as several smaller infill open spaces.</p>

Criteria	Reason																																				
	<p>The housing stock of this ward forms a largely high-density pattern, with largely terraced properties having elevated levels of student HMO occupation. The Toxteth Park and Avenues Conservation Area is in this ward, and retail facilities are concentrated around the Smithdown Road North District Centre and Lodge Lane Local Centre.</p>																																				
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward No.:	57
Proposed Name:	Smithdown Dales Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	4,492
Citywide Electorate Average:	4,300
Variance (%):	+4% (192)
Former Ward(s):	Parts of former wards – Greenbank, Picton
Former Polling District(s):	All or part of – GRA, GRD, GRE, PCA

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 4% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> From its northern most point the boundary runs south east along Lawrence Road to its junction with Wellington Road before a brief northerly turn to meet the West Coast Mainline then turning south east and along to the A56 Smithdown Road before turning again east until the junction with the A5342 Ullet Road. The boundary here runs west before turning onto and running down the centre of Halkyn Road, Arundel Avenue and then east on to Smithdown Road where it heads north west before turning north on to Bagot Street.</p> <p><u>Infrastructure & Environment</u> The landscape of this ward is predominantly flat. Residents can</p>

Criteria	Reason																						
	<p>access the nearby Wavertree Sports Park, Greenbank Park and Sefton Park which lie in the adjacent Wavertree Village (49) & Greenbank (65) within a 20-minute walk.</p> <p>The housing stock of this ward forms a largely high-density pattern, with largely terraced properties having elevated levels of student HMO occupation.</p> <p>The ward includes larger retail facilities in the form of Smithdown Road South District Centre and is within easy walking distance of Allerton Road District Centre in the adjacent Penny Lane (66) ward.</p>																						
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward No.:	60
Proposed Name:	Gateacre Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	4,452
Citywide Electorate Average:	4,300
Variance (%):	+4% (152)
Former Ward(s):	Parts of former wards – Belle Vale, Woolton
Former Polling District(s):	All or part of – BVA, BVC, WOB

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 4% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u></p> <p>The northernmost section of boundaries comprise a horseshoe shaped area to the east of Childwall Woods including playing fields to the north before then turning south to run along a disused railway line before taking in parts of Hartsbourne Avenue to ensure a unified community and including parts of Gorswood Road before joining the B5171 Belle Vale Road then again following the disused railway line south. Turning south west the boundary runs through the centre of Holly Tree Road before heading north to follow Acrefield Road and then Woolton Road.</p> <p><u>Infrastructure & Environment</u></p> <p>This ward forms one of a cluster including Woolton East (69),</p>

Criteria	Reason																								
	<p>Woolton West (68) and Gateacre (60) which are set on higher ground than other areas of the city. Whilst there are no major parks within the ward, several key areas of open space are to be found in adjacent wards including Reynolds Park in Woolton West (68) and Childwall Woods in Childwall Hope Park (59). Part of the Liverpool loop line for the Merseyrail network also runs through this ward.</p> <p>Housing stock is largely semi-detached/detached post war stock. The last 20 years have also seen a number of small scale in-fill development, predominantly semi-detached and detached. Ward Profile

Criteria	
Ward No.:	65
Proposed Name:	Greenbank Ward
Alternate Name options:	N/A
Proposed No. Councillors:	1
Electorate 2027:	4,627
Citywide Electorate Average:	4,300
Variance (%):	+8% (327)
Former Ward(s):	Parts of former wards – Greenbank, Mossley Hill
Former Polling District(s):	All or part of – GRB, GRC, GRF, GRJ

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 8% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> Starting from Croxteth Gate the boundary heads east along the A5089 Ullet Road until meeting the A562 Smithdown Road then heading east to follow the West Coast Mainline railway which it follows until turning south west to follow Rose Lane, Elmswood Road and round to meet the main perimeter road of Sefton Park which it follows north taking in the Cricket Club pitches.</p> <p><u>Infrastructure & Environment</u> The landscape of this ward is predominantly flat with a gradual slope down towards the Mersey.</p>

Criteria	Reason									
	<p>Greenbank Park lies within this ward, whilst within 20-30 minutes walk of the ward are a range of significant open spaces including Otterspool green wedge (which includes Festival Gardens) and Sefton Park – these lie within the adjacent wards of Festival Gardens (70), St Michaels (71) and Sefton Park (64).</p> <p>In terms of residential areas, there is a diverse housing mix with large, detached dwellings/villas including the Sefton Park Conservation Area which lies within this ward and the adjacent Sefton Park Ward (64) as well as parts of the Mossley Hill Conservation Area. There are also various tower blocks, lower-level apartment blocks and villa conversions in this ward. There have been little new residential developments across the wards other than limited infill sites in the last 20 years.</p> <p>The retail offer for this ward is concentrated in the Smithdown Road South District Centre.</p>									
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Electorate 2027:	3,981
Citywide Electorate Average:	4,300
Variance (%):	-7% (319)
Former Ward(s):	Parts of former wards – Mossley Hill, Riverside, St Michaels
Former Polling District(s):	All or part of – MHA, MHB, RVD, RVE, RVF, SMD, SME

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 7% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The northern section of this ward is bounded to the west by the Mersey, Brunswick Way to the north and running south along Sefton Street and round the perimeter of the former Garden Festival site running south then running in parallel to the Merseyrail railway line before turning north east along the rear of properties on Fulwood Park then south east along Aigburth Road to Jericho Lane before heading west to meet the Mersey.</p> <p><u>Infrastructure & Environment</u> The landscape of this ward is predominantly flat with a gradual slope down towards the Mersey but does include a 12-15m escarpment adjacent to the boundary with Dingle South (63).</p>

Criteria	Reason									
	<p>The ward contains significant areas of open space including the Festival Gardens and a large element of the Otterspool green wedge which straddles this ward and Aigburth (72).</p> <p>Floral Wood lies within this ward at a noticeably higher level than the ground adjacent to the river. The Brunswick Business Park also lies within this part of the ward near the Mersey and is represents the only industrial use.</p> <p>In terms of residential development, there is a diverse housing mix with large, detached dwellings/villas as well as modern post 1980's suburban stock in this ward on the former garden festival site. Fulwood Park Conservation Area lies within this ward and the adjacent St Michaels Ward. There are also various tower blocks, lower-level apartment blocks and villa conversions within the ward. There have been little new residential developments across the ward other than limited infill sites in the last 20 years.</p> <p>There is only limited local retail units within the ward, with most residents needs served through the Aigburth Road District Centre in St Michaels Ward as well as the Park Road Local Centre.</p>									
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size to enable effective representation by an elected local Councillor.</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it may be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Variance (%):	+5% (204)
Former Ward(s):	Parts of former wards – Cressington, Mossley Hill
Former Polling District(s):	All or part of – CRC, MHA, MHB

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 5% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The northernmost boundary takes in several properties bounding the south of Sefton Park then running south east along North Sudley Road before turning south west along the centre of Dundonald Road. Turning south east then along the A561 Aigburth Road before turning south west along Grassendale Road and the rear of properties on North Road before meeting the Mersey where it turns and runs north until Jericho Lane where it heads north east to Aigburth Road.</p> <p><u>Infrastructure & Environment</u> This ward is characterised by a relatively flat landscape and benefits from significant greenspace within the ward at Otterspool</p>

Criteria	Reason															
	<p>Promenade and the Otterspool green wedge, and within 20-30 minutes walking distance a range of other greenspaces including Holt/Sudley Fields as well as other smaller areas of greenspace across the ward.</p> <p>Housing stock is largely semi-detached 1930-1950 with some limited areas of terraces, and there have been several new developments the last 20 years which are predominantly semi-detached and detached. A small part of the Sefton Park Conservation Area is also located in this ward.</p> <p>Turning to the retail offer, Rose Lane and Aigburth Vale act as local centres which are split between Mossley Hill (73) and Calderstones (74).</p>															
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Variance (%):	-1% (37)
Former Ward(s):	Parts of former wards – Allerton & Hunts Cross, Church
Former Polling District(s):	All or part of – AHD, CHA, CHB, CHE

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and just 1% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u></p> <p>From its westernmost point the boundary heads north east along Rose Lane then follows Calderstones Road and the perimeter of Calderstones Park to its junction with the A562 Menlove Avenue then taking in in part of Yew Tree Road running south east along a footpath then round east to re-join Menlove Avenue which is followed until joining and following a public footpath to the south of Allerton Golf Course until Allerton Road then continuing along Heath Road to Mather Avenue. Then heading north along Mather Avenue to Booker Avenue where it heads south west then north following the West Coast Mainline railway.</p>

Criteria	Reason																		
	<p><u>Infrastructure & Environment</u></p> <p>This ward is characterised by a relatively flat landscape and benefits from significant greenspace within the ward including Calderstones Park, the Calderstones/Woolton green wedge and Allerton Golf Course as well as other smaller areas of greenspace.</p> <p>Housing stock is largely semi-detached 1930-1950 across the ward. There have been several new developments across the ward in the last 20 years which are predominantly semi-detached and detached. The ward includes a small section of Allerton Road District Centre which serves the needs of this and several adjacent wards, and residents are also within walking distance of Rose Lane and Aigburth Vale Local Centres. In addition, Hunts Cross Shopping Park in nearby Garston North ward offers a wider range.</p>																		
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward No.:	75
Proposed Name:	Springwood Ward
Alternate Name options:	Allerton
Proposed No. Councillors:	1
Electorate 2027:	4,299
Citywide Electorate Average:	4,300
Variance (%):	0% (1)
Former Ward(s):	Parts of former wards – Allerton & Hunts Cross, Cressington
Former Polling District(s):	All or part of – AHA, CRD

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and almost exactly the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> Running east along Booker Avenue to Mather Avenue then south east until Heath Road. Then turning east following the road and a public footpath through the golf course before heading south along Hillfoot Road, Speke Hall Road to then follow the West Coast Mainline Railway running west/north west again.</p> <p><u>Infrastructure & Environment</u> This ward is characterised by a relatively flat landscape and benefits from a range of significant greenspaces typically within 20-30 minutes walking distance which include Calderstones Park, Clarkes Gardens, Simpson Ground, Camp Hill, Otterspool Promenade, Allerton Golf Course and Holt/Sudley fields together</p>

Criteria	Reason																		
	<p>with both the Calderstones/Woolton and Otterspool green wedge</p> <p>Housing stock is largely semi-detached 1930-1950 properties. This ward hosts the larger-scale Hunts Cross Shopping Park. Nearby Calderstones (74) contains a small section of Allerton Road District Centre whilst both Aigburth (72) and Mossley Hill (73) cover Rose Lane and Aigburth Vale Local Centres to add variety.</p> <p>This ward also contains a number of industrial sites comprising Triumph Trading Park/Goodlass Road which houses several hazardous installations.</p>																		
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Citywide Electorate Average:	4,300
Variance (%):	+8% (337)
Former Ward(s):	Parts of former wards – Allerton & Hunts Cross, Woolton
Former Polling District(s):	All or part of – AHB, AHC, AHE, WOA

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and 8% above the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The northern boundary follows High Street to Speke Road then south east along Manor Road before south down Hunts Cross Avenue, east along the perimeter of Woolton Hall Golf Course with its junction with Mackets Lane, then south along the boundary to its junction with the West Coast Mainline railway. Heading north at Speke Hall Road and on to Hillfoot Road</p> <p><u>Infrastructure & Environment</u> This ward forms one of a cluster including Woolton East (69), Woolton West (68) and Gateacre (60) which are set on higher ground than other areas of the city.</p>

Criteria	Reason													
	<p>One of the key local areas of open space lies within this ward in the form of Woolton Woods and Camp Hill, the latter linking into the Calderstones/Woolton green wedge.</p> <p>Housing stock is largely semi-detached/detached post war stock. The last 20 years have also seen a number of small-scale in-fill development, predominantly semi-detached and detached. This ward also includes part of the Woolton Village Conservation Area.</p> <p>Turning to retail provision, Hunts Cross Local Centre can be found within the ward and, for a wider range, residents have access to nearby Woolton West (68) and Woolton East (69) where Woolton District Centre serves several wards. This ward also contains industrial sites located in the far south eastern corner which also house a hazardous installation.</p>													
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>

Ward Profile

Criteria	
Ward No.:	79
Proposed Name:	Garston South & Cressington Ward
Alternate Name options:	Garston Docks
Proposed No. Councillors:	1
Electorate 2027:	4,251
Citywide Electorate Average:	4,300
Variance (%):	-1% (49)
Former Ward(s):	Parts of former wards – Cressington, Speke-Garston
Former Polling District(s):	All or part of – CRE, SGA, SGF

Criteria	Reason
Electoral equality	This proposed ward falls within a series of recognised boundaries and just 1% below the citywide average electorate for a single member ward. This is based on a council size of 85 members representing 80 wards – 75 single member and 5 two member.
Strong, easily identifiable boundaries	<p><u>Boundaries</u> The boundary runs from the northwesternmost point north east to the rear of properties in North Road and then along Grassendale Road before turning south east along St Marys Road which is followed into Garston Way until reaching Speke Hall Avenue then turning south to the entrance of Speke Hall then following a public footpath until the Mersey and then along the waterfront north.</p> <p><u>Infrastructure & Environment</u> This ward has a largely flat topography, sloping gently down towards the Mersey. Housing stock in this area and adjacent wards of Garston North and Speke ranges from the 'island' of Speke, which is predominantly terraced and post-war stock, comprising</p>

Criteria	Reason																					
	<p>significant numbers of social housing, to the historic villas of the Grassendale and Cressington Parks which date back to the mid nineteenth century. The Grassendale & Cressington Conservation Area is also located in this ward. There have been several new housing developments across this ward during the last 20 years comprising a mix of semi-detached and detached properties.</p> <p>The Garston Coastal Reserve falls within both this ward as well as adjacent Speke (80) whilst residents also travel to the Long Lane Recreation Ground in Garston North (78).</p> <p>The Speke District Centre lies in the nearby Speke Ward and in Garston North (78) the Garston District Centre and New Mersey Retail Park act as considerable draws. The ward also includes a mix of industrial and employment sites some of which deal with more hazardous processes.</p>																					
Delivering effective and convenient local government	<p>This ward represents a unified and recognisable community and is of a geographic and electoral size that enable effective representation by an elected local Councillor. This will also ensure the local community are able to identify and recognise their local representative</p> <p>Reflecting the principle of the 20-minute neighbourhood, the ward has been modelled so that it can be grouped with several adjacent wards which share similar characteristics in terms of housing stock, social issues and demographics.</p> <p>These linkages and community clusters will aid the development of new neighbourhood structures including support arrangements for Councillors with capacity and casework including in the event of absence.</p>																					
Reflecting community interests and identities	<p>This ward represents a recognisable and cohesive community, with the following local organisations and community groups either active or based here –</p> <table><tr><th>Group</th><th>Active/based in Ward</th><th>Active in wider city</th></tr><tr><td>Art in Liverpool CIC</td><td>Y</td><td>Y</td></tr><tr><td>Merseyside Sports Foundation</td><td>Y</td><td>Y</td></tr><tr><td>Action for Regeneration & Community Health (ARCH)</td><td>Y</td><td>Y</td></tr><tr><td>Can Cook</td><td>Y</td><td>Y</td></tr><tr><td>St Mary's Grassendale</td><td>Y</td><td></td></tr><tr><td>Garston and District Community Council</td><td>Y</td><td></td></tr></table>	Group	Active/based in Ward	Active in wider city	Art in Liverpool CIC	Y	Y	Merseyside Sports Foundation	Y	Y	Action for Regeneration & Community Health (ARCH)	Y	Y	Can Cook	Y	Y	St Mary's Grassendale	Y		Garston and District Community Council	Y
