Organisation Name: Friends of Longfellow Avenue

Comment text:

Hello, I volunteer for a local group called Friends of Longfellow Avenue. We all live close to your boundary line on Longfellow Ave and Edge Hill Lane but the new boundary line runs along Bert Street and cuts us off from our field. As a local group we have been working with the land owner to turn the field into a community garden and nature walk as part of the old railway cutting. We have been working with our local councillors to do this as well. We don't want the field to go into another area as this would make it more difficult to work with so would like the line to be drawn back across the field. We have done some tree planting and tidying up on the field too so taking it away from where we live would make dealing with it harder if there was ever from flytipping again. The people who live local would like the field to stay on this side of the boundary please. Thank you for your time and consideration.
