Comment text:

Kirkdale I am chair of the Waterloo Quay Tenants Association. Our association was constituted in the year 2000. Over twenty years we have witnessed the loss of access to the Liverpool river waterfront to residents of this area. Most of this Liverpool historic dock and the riverside have been 'cut off from the rate payers awaiting lease old developments by the offshore Landlord. Our forbears helped to create our historic docks both workwise and ratepayer wise and in spite of continued local political support by elected representatives the landlord and our planning department appear to prefer leasehold apartments rather than proper homes for the FAMILY HOMES.... houses.... our city requires.
