I would like to share my objection to this proposal as a council tax payer and resident of Rushwick. The proposals mean that residents of not only Rushwick but I believe all rural wards will have a reduced level of representation from our councillors while residents living in the town wards will retain the same number. This is simply, and clearly not fair anyway, however at the current time our rural areas are under threat of losing their character, history, wildlife and crucial green spaces due to the number of housing and developments proposed. Reducing the level of representation at this current time in these areas puts these areas at great risk and would have a hugely detrimental effect on Worcester as a whole. The council tax that I, and others in these villages pay is every bit as important as that paid by residents within the town. Please ensure that we are all treated fairly and do not introduce this draft idea of Superwards which unfairly advantages residents who live in the town.
