Comment text:

I understand that one of the merger proposals is to include Hallow with Broadheath. Hallow ward and the surrounding villages of Grimley, Sinton Green, Worlds End and Monkwood. We have always been well represented by our present councillor, former MHDC chairman, Dean Clarke, who has an encyclopaedic knowledge of the area mentioned above. With the advent of multiple housing developments in both Hallow & Broadheath which will undoubtedly bring many obstacles with them, surely it would be better to keep the boundaries separate with their own dedicated councillor. I understand the need to reduce overheads but at whose expense? The decision to make a merger of these two parishes will affect all of the residents who are rate payers who actually deserve a proper and realistic representation from their district council. With the growing developments in Hallow and Broadheath they need individual representation of the highest standards available not a diluted one where the representative becomes an anonymous unidentified mouthpiece. Therefore, I fully support the motion NOT to have any kind of merger with any other parishes. Let Dean Clarke continue his excellent representation of the parishes for which he was elected.
