**Organisation Name:**

**Comment text:**

The area of speke garston should be separate areas as it's the biggest boundary in Liverpool with three councillors one focuses on garston and two on speke garston is a big area to only have one councillor the next boundary cressington an area similar size to garston has three councillors also the name cressington is confusing as it's mainly grassendale/garston park and this name always causes local confusion as cressington is such a small area of that boundary. In short change the name of the cressington ward and separate garston from speke there both big enough areas in their own right
