Comment text:

I'm up for reducing the size of the council I think 85 is still to many ! Liverpool does NOT give value for money! They never accept responsibility it's always someone else's fault ! Normally the government of the day! Waste of council tax payers money is rife of ridiculous projects! I think you would be better served creating more wards with 1 councillor this would encourage them to accept responsibility and actually work for all the electorate! I live in a safe seat and have the laziest councillors! It's unfair for me as council tax payer to have no Opinion on polling day! (I have voted labour the majority of my adult life) the commission should aim if it's in its power's to maybe move to a PR vote this I genuinely believe would make the council more effective and offer better service and work for everyone not just certain groups!
