### Comment text:

I would support Croxteth park becoming its own ward with one councillor to represent. The current Croxteth ward is large, and I feel by having such a large ward, there is a diverse range of needs and as such they cannot all be met. Having Croxteth park as it's own ward would allow it to be fairly represented. Currently even basic, routine maintenance is lacking. There are obviously limited funds and I feel the area is often overlooked as the current ward is so large with a diverse population and varied needs. Although Croxteth park is a more affluent area of the current Croxteth ward, I do not feel this should mean it is totally overlooked. The needs of Croxteth park are not alligned with the rest of the current Croxteth ward and I therefore feel it is overlooked as other areas are prioritise. Having 3 councillors over a large ward means they are pulled in several directions. I believe smaller wards with one councillor will enable that councillor to understand the needs of that ward and fairly represent it.
