### Comment text:

I have been a resident of Warfield for over 10 years and do not see the benefit of these proposals. I live in the parish of Warfield and should be represented by a Warfield parish councillor. I do not understand how changing the name to Priestwood and Garth makes it more inclusive. It seems a strange move which has been done to accommodate the large amount of new houses that have been erected in the the recent past in the local area and doesn't really think about the people that have lived and created a community in the parish for a number of years. I cannot see any benefit to the proposed changes and do not agree with them.
