### Comment text:

Hi, Thank you for opportunity to feedback on the proposed boundary changing. I am absolutely 100% AGAINST the proposal to combine my ward (north lake, old bracknell) with Hanworth. I have always found it extremely helpful that our councillors live on the estate. The estate is managed in a very different way to all the larger areas around bracknell and I believe this should be taken into consideration. What may be good for hanworth, is not necessarily good for north lake, and of course, vice versa. However, with north lake being the much smaller area, I believe it will always be bringing up the rear, having to follow what's decided for the much larger areas of birth hill and hanworth. I would appreciate you giving this the appropriate thinking and discussion that it deserves. The connection to a councillor based within a managed estate is of very high importance to the local residents here, Best Regards, [REDACTED]
