### Comment text:

We currently live within the Warfield Harvest Ride section that is proposed to be included within Priestwood and Garth. We have only just purchased the property and would be very concerned that this change would most certainly devalue our property, and all the others within this slither. This concern is based on the fact that when we looked at houses there was a difference in cost between Priestwood and Warfield. We don't agree with this proposal and can't see the benefits of the change. I imagine all other residents in our situation will feel the same. Please do not go ahead with this!
