Comment text:

Not happy about the changes to wards. We were always in Pelham Ward and then suddenly it was changed and we found ourselves in Northfleet East & Rosherville! If you look at the current map you will see that the line now goes along our alleyway, next to our home, and a complete little block has been removed from Pelham ward without any notification to those of us that live in that square. We used to just walk round the corner to the girls grammar school and vote when required. Now we have to go a lot further, ridiculous in our eyes. We aren't the only ones that this bothers. In fact some have stopped voting! I await the final decision with interest, if its as normal then submissions are a waste of time but comments were requested!
