Ref; Apley Castle/Leegomery. We fail to understand the logic or need to change what has been a success. The costs involved in new signage, mapping, postal changes for residents etc. Not to mention the PRH costs involved. (Will the lgbce be paying those costs?) Apley Castle should remain an independent ward which has served its residents well. All the good work that has been done to make Apley a great place is now under threat which is totally unacceptable. Bigger wards will mean a dilution in service and support not to mention having a negative effect on both wards. So, you want to increase Newport's wards to Four smaller wards but increase Apley's to include Leegomery. Was someone bored with nothing to do during Covid to suggest these changes which are not in the interests of the residents of either Apley Castle or Leegomery, or maybe there's an ulterior motive behind such a move! Whatever the reasons if it's not broken why destroy it. Please leave the wards as they are. Thank you.
