To whom it may concern, I'm very disappointed by the boundary proposals which see Ketley Bank put with Ketley. They share a similar name, that's it. The local areas has no connection with Ketley and its separated by a massive road which is inaccessible to myself as I struggle with my mobility. As a former miner we have a proud community with a passionate link to industry, Ketley Bank a former slag heap and mine has been linked to Oakengates for over one hundred years. We look to the town as our place to drink, shop and spend our time, it does not seem right that our community would look to Ketley. I'm a regular bus user and depend on these services to get to the doctors in Oakengates, we had to fight hard to keep the service in Ketley Bank and this is something we did with our local councillors, the idea that one councillor can fight for these services and protect our local high street does not make sense. I hope you can reconsider this decision and make sure local people retain their voice and our community is not broken in two.
