### Comment text:

Dear sir. I live at [REDACTED] which is just outside Newport in Chetwynd Aston. I find it hard to understand how the new properties being built on the Bloor development and my property are not within the Newport Town Council jurisdiction. All of the residents of these new developments do or will take advantage of the facilities available in Newport. It is therefore logical that whatever portion of the rates the local council is entitled to should be distributed to the council that provides these facilities. Please consider moving the Newport Town boundary out to the A518 which seems to be the logical town boarder.
