Comment text:

I am a long standing resident of Horsehay and am very unhappy about the proposals put forward by Telford and Wrekin Council to split Horsehay as part of its borough boundary changes. Horsehay is an extremely old village, my property and many other properties are more than 200 years old. It existed long before the Telford Town and has always enjoyed a unique identity. Residents are proud to live in Horsehay and many have lived here for generations. The idea to split this community seems to be totally against what local government i.e. representing local communities is about. I hope that you concur with this view.
