### Comment text:

I firmly believe that with the increased development within the Ketley & Overdale area, specifically Lawley. Lawley should be a parish on its own that serves the needs of Lawley residents. One of the largest developments in the country of approximately 3500 residential properties will lead to increased population. The current set up means that Lawley residents will not be represented proportionately. Lawley has its own natural community and identity and this is set to grow over the coming years.
