I live in Buckland and would like to express my support for the parish council request for the name of the new ward to name all five settlements currently referenced in the two wards it is proposed will be merged. While the communities of the 3Bs share many amenities and work closely on joint initiatives they are still settlements in their own right and the easiest way to recognise this is to keep all five names in the name of the new ward. Currently the village names are listed against the councillor on the MVDC website, on your polling card and on the voting box and election notices.....locally we are referred to informally as the 3Bs.....and would fully expect the new larger ward to become known as Headley and the 4Bs.....I can see no meaningful benefit to be gained by insisting on a generic name.
