Subject: Mole Valley D.C. L.G. Boundary Review

I refer to the proposed boundary arrangements for Bookham and Fetcham.

The reduction from 4 to 3 wards creates a curious and totally artificial ward of Eastwick Park which has no valid existence in reality, being astride the eastern part of Great Bookham and the western part of Fetcham.

Both Bookham and Fetcham have meaningful economic and social existence for local residents. This cannot be said for Eastwick Park. To have its western boundary through the heart of Great Bookham is plain wrong.

Sincerely,

[REDACTED]
