Comment text:

With regard to the proposal to move buckton fields estate into kingsthorpe,as a resident of the estate and a parish councillor for Boughton parish within which we currently live, I object I support the formation of the new Moulton Ward comprising the parishes of Moulton, Pitsford, Boughton and Overstone. I understood until very recently that that was the view also of WNC I was surprised to see the WNC suggestion that Buckton Fields should be removed from the parish and allocated to Kingsthorpe North I confirm that I have seen the letter from John Shepherd chair of Boughton parish council and his outline of the community issues which arise from changing the boundaries as proposed. I endorse his views fully. I confirm that one of the key objectives of the PC has been to foster parish based community spirit and confirm that that is being achieved. It is indeed the reason that I joined the parish council. I am interested to know what happens to the CIL money which comes as a result of the new development and if this would now be claimed by Kingsthorpe council. I am also interested to know my fate as a parish councillor for Boughton but living on Buckton Fields estate. I hope you can reassure me that all these issues will be carefully considered prior to any decision being taken. Frances King [REDACTED] Boughton Parish Councillor
