

West Northamptonshire Council

Personal Details:

Name: Deborah Jewell
E-mail: chiefofficer@daventrytowncouncil.gov.uk
Postcode: XXXXXXXXXX
Organisation Name: Daventry Town Council

Comment text:

Daventry Town This is the submission from Daventry Town Council. In preparing its submission proposing new ward arrangements for the Town, the Council took account of: • Equality of representation • Reflecting community identities and interests • Providing for convenient and effective local government Daventry Town is an urban area within a rural environment; subsequently consideration must be given to ensuring boundaries reflect the community's urban identity and interests. The Council proposes two wards: one two-member ward and one three-member ward, please refer to the table attached as Appendix 1, which provides a summary of proposed warding arrangements and the figures to support the proposals. A copy of a map showing the proposed ward boundaries is also attached as Appendix 1. The town of Daventry is distinct from the surrounding environment as it is a sizeable urban area rather than a village. The population of Daventry means it should be represented by five members: creating North and South wards using the man-made physical barriers of roads between North and South and where necessary some non-road boundaries between distinct communities: From the northwest, follow A45 – Braunston Road southeast to non-road boundary between Timken (between Morning Star Road and Tennyson/Wordsworth Road) and Headlands, arc to the north to include New Forest Way, Ashby Park and Daneholme, along – Northern Way, East on Eastern Way towards Norton on Daventry Road. See Appendix 1. This warding pattern is illustrative of connections that binds communities and enables elected members to focus on the electorate's identified needs. The Town Council emphasizes that should a different warding pattern (e.g., five single member wards) be considered for the Town, the boundaries MUST not extend beyond the parish boundaries as this WILL NOT facilitate elected parties to deliver convenient and effective local government.
