Comment text:

Towcester should be a ward on its own. Due to the large amount of building work recently undertaken and ongoing their needs are very different from the villages around them. Why does the Deanshanger ward go all the way over the M1 when most of the villages within the ward are centred around the A5 and Old Stratford roundabout? The balance of cllrs needs to better reflect the needs of the whole unitary area not just Northampton. The balance of power held by Northampton ward councillors needs to be removed as there is a huge amount of land, People and opportunity outside the boundaries of the town. Many people don't have access to Northampton as our 'County Town'. There is no public transport from many outlying areas into town and yet Northampton receives so many opportunities that are unable to be accessed by the majority.
