

Earls Croome Boundary Commission Comment:

Earls Croome Parish Council feel that there should be no reduction in the numbers of District Councillors at this time as it is vitally important that the electorate are properly and fully represented especially with respect to new developments and the associated infrastructure. District Councillors are fully occupied as it is and it would be unfair to give them larger areas to cover.

However, if this were to happen Earls Croome Parish Council would like any Boundary Review to respect the rural nature of the Parish. They would not wish to be included with Upton Town and would only consider being coupled with another rural village.
